OBJECTIVE

Buildings, whether designed thoughtfully or not create a lasting imprint upon society both physically and culturally. I hope to use my talents and abilities in the architectural profession to design spaces that inspire a function rather than suffice as shelter and that help to educate the community of sustainable strategies rather than simply striving for a prestigious environmental rating. I wish to be a part of creating truly responsible architecture.

EDUCATION

University of Oregon: School of Architecture and Allied Arts

Bachelor of Architecture Degree (June 2008)

Major: Architecture

Minor: History of Architecture

Honors & Activities

Dean's Scholarship (2003-2008)

Study Abroad: Macerata, Italy (2006)

Riverside Polytechnic High School (1999-2003)

Honors & Activities

CSF Life Member

Golden State Scholar

Cal Poly, San Luis Obispo Summer Architecture Academy (2002)

EXPERIENCE

Staff, **Tower Realty** (2000-2008)

Webmaster (tower4sale.com); marketing designer and photographer for collateral materials; and the computer technician for hardware and software applications.

Staff, **University of Oregon Athletic Department** (2007-2008)

Audio and video technician for all U of O sporting events including the Olympic Trials.

Operated audio mixing boards and programmed computer sequences for video material.

Intern, **Broeske Architects & Associates, Inc.** (Summer 2007)

Updated the company's graphic images, including 3d rendering, logos, and portfolio pages.

Generated renderings and drafted plans for a variety of projects.

Freelance Designer, **Various Clients** (2007-current)

- Research and design work for the construction of a single-family residence in Caye Caulker, Belize. (2007-present)
- Military housing/fire station rendering for TranSystems Corporation (2009)
- Kitchen design and rendering for a client in Southern California (2010)
- Indian community housing rendering for Priti Architecture (2010)

Designer/Intern Architect, **Amato Architecture** (2008-current)

Drafting and three dimensional modeling for a single architect-run firm. Daily tasks also include client/contractor/engineer interaction and dealing with the city permitting process.

COMPUTER SKILLS

Adobe Acrobat, Photoshop, Illustrator, Fireworks, Dreamweaver, Auto CAD, Microsoft Excel, PowerPoint, Publisher, Word, FrontPage, SketchUp, and Podium (a rendering plug-in for SketchUp), Windows XP/Vista/7.
